

ATTENDANCE AND COURSE PROGRESS POLICY & PROCEDURE

Policy Statement

The purpose of this policy is to ensure that Malvern International College Pty Ltd trading as Central Melbourne Institute (referred as "CMI" hereafter) monitors international students to ensure that they can complete their course within the duration specified on their Confirmation of Enrolment (CoE) and that timely intervention strategies are implemented for students who are at risk of failing to meet attendance or course progress requirements.

The intention of this policy is to provide all students with the best opportunity to meet their study goals and aspirations and to ensure that students do not breach their visa requirements.

This policy ensures compliance with Standard 6 and 8 of the National Code of Practice for Providers of Education and Training to Overseas Students 2018 (Cth) and Clause 1.7, 6.1 to 6.6 of Standards for RTOs 2015 (Cth).

To ensure that students have the best opportunity of achieving their course outcomes, CMI monitors course attendance as well as course progress. This is because best practice has found to be that low attendance records is an early indicator of unsatisfactory course progress.

CMI will continue to report students on the basis of course progress; however, students will be sent a warning letter if their attendance falls below 80% during any study period. CMI will keep attendance record in manner prescribed in this policy.

Policy

1. Completion within expected duration

International students must complete their studies within the expected duration specified on their Confirmation of Enrolment (CoE). The duration of the course as specified on the student's CoE will never exceed that registered on the CRICOS register.

CMI monitors student progress to ensure that students complete their studies within the expected duration specified on their Confirmation of Enrolment.

2. Attendance monitoring

CMI will monitor course attendance on a fortnightly basis in addition to course progress as an early indicator of a student's underachievement.

Before commencement of course, through its induction program, CMI will advise the students about the importance of maintaining at least 80% attendance in the scheduled hours of the study period (for example: **20 hours per week X 1 term X 10 weeks**) and how attendance affects the course progress. It is important for students to understand that not attending classes regularly will lead to unsatisfactory course progress.

CMI will not report students solely on the basis of attendance; however, where attendance levels fall below 70% or below 80% with unsatisfactory course progress will result in students being reported to the Department of Education in association with the Department of Home Affairs (DHA) via PRISMS.

Attendance Monitoring Process

Attendance records:

CMI will maintain attendance records in following manner:

Class rolls for each unit of competency for all the courses must be kept and should contain the following information:

- Course Code and Course Name
- date and location of the Class
- student ID
- full name of each student enrolled in the class
- the signatures of each student scheduled to attend that class at the commencement and conclusion of each class; and
- the full name and signature of trainer/assessor either training or assessing that class.

Calculating attendance

Fortnightly using all class rolls populate the spread sheet identifying each student's attendance records. Within this spread sheet calculate a running total of their percentage of "Non-Attendance Hours."

Contacting students

If CMI identifies a student with either:

- an unauthorized absence of more than 5 days in a fortnight or
 - attendance is below 80% for the fortnight
- then the administrative department will contact those students to understand the reason for the absence and to identify any support measures required.

Maintaining record of contact

CMI will maintain a contact log of calls made on an excel spread sheet or copy of correspondence sent to the students. The Intervention strategy form and meeting minutes will be completed for students coming to an intervention meeting.

In addition, CMI has drafted a list of frequently asked questions for students to understand the importance of attendance and course progress. (***Please refer Appendix 1- FAQ- Attendance and course progress***)

Attendance warning letter

In addition to fortnightly monitoring and contact, CMI will send attendance warning letter to students falling below the 80% attendance requirements for the study period. The letter invites students to attend an intervention meeting and warns about the importance of maintaining satisfactory attendance and course progress.

Please refer appendix 2- Attendance warning letter

Reporting students

Where a student has demonstrated unsatisfactory course attendance (less than 80%) within a study period despite interventions implemented, CMI will look at the student's course progress. Where this is not being met the student will receive a written notice informing them of the intention to report for non-satisfactory course progress and the reasons for the intention to report.

Please refer course progress requirements below for more details.

3. Course progress requirements

- Satisfactory and unsatisfactory course progress including a process for determining the point at which the overseas student has failed to meet course progress requirements is clearly defined in this policy and communicated to all students before commencement and through the course through regular contact with students.
- Course progress requirements are defined in relation to study periods and may include (but are not limited to), any combination of the following.
 - Satisfactory completion of certain assessment tasks or a certain number of assessment tasks
 - Achieving competency (C) for certain units of competency or a certain number of units of competency scheduled in the study period.
- Students who do not meet course progress requirements are at risk of having their visas cancelled. Where requirements are not met, CMI course progress monitoring procedures will be followed. CMI will identify and contact students at risk of not meeting the course progress requirements by contacting them by email/telephone/letter as deemed fit.
- CMI uses a range of methods to monitor course progress including review of assessment tasks, participation in tuition activities and other measures of academic progress as defined in the procedures. All records of course progress is kept on file.
- Students must also ensure that they abide by academic conduct requirements to ensure that they can complete their course in the expected duration.
- CMI implement "Department of Education, Employment and Workplace Relations (DEEWR) course progress policy and procedures", however, CMI believes that regular and sufficient attendance to classes is necessary for successful achievement of expected outcomes in VET.
- Satisfactory course progress means attending scheduled classes and successfully completing all assessments and obtaining a Competency (C) in all the units in the prescribed study period.
- CMI monitors, records and assesses the course progress of each VET student for each unit of the course for which the student is enrolled in.

- CMI assesses each student’s course progress at the end of each study period (Please refer study period table for each qualification)
- Unsatisfactory progress is defined as not successfully completing or demonstrating competency in at least 50% of the course requirements in that study period.
- Students are informed during an orientation about their course requirements and progress review dates.
- CMI has an intervention strategy that identifies and assists students who are at risk of not making satisfactory course progress. At a minimum, for VET students, the intervention strategy is activated where the student has failed or is deemed not yet competent (NYC) in 50 per cent or more of the units attempted in any study period, CMI may choose to intervene at any point before the end of a study period for example if the student does not attend the classes regularly or does not respond to CMI’s attempts to assist the student in achieving satisfactory course progress.
- At the end of each compulsory study period, students will be assessed against the “Attendance and Course Progress Policy and Procedure”. If a student is identified for the first time as not making satisfactory course progress, the intervention strategy is implemented. The intervention strategy will be activated within the first four weeks of the following study period.
- If a student is identified as not making satisfactory course progress in a second consecutive compulsory study period in a course, (failing 50% or more units in second study period), CMI will notify the student of its intention to report the student to the Department of Home Affairs via PRISMS for unsatisfactory progress.

4. Intervention Strategy

CMI ensures that it identifies, notifies and assists students where there is evidence that the student is at risk of not meeting course progress requirements.

For students at risk of not meeting course progress requirements an individual intervention plan will be developed based on the appropriate intervention strategy identified.

An intervention plan will include an interview with the Administrative Officer, and it may include one or more of the following strategies:

- 4.1 Advising students on the suitability of the course in which they are enrolled and possible alternatives;
- 4.2 Advising students of opportunities for reassessment; and advising students of assistance that CMI can provide including:
 - receiving English language support;
 - reviewing learning materials with the student and providing information to students and in a context that they can understand;
 - providing extra time to complete tasks;

- providing access to supplementary or modified materials
- providing supplementary exercises to assist understanding
- attending academic skills programs;
- receiving assistance with personal issues which are influencing progress including counselling needs
- being placed in a suitable alternative subject within a course or a suitable alternative course; or a combination of the above and a reduction in course load.
- extension of CoE.
- Any additional course requirements, including:
 - The need to repeat a Unit of Competency
 - The need to re-sit/re-submit an assessment task
 - Further additional catch-up classes
 - Review of groups and teams that the student is working within
 - advice with regards to seeking external study skills support
 - agreement of a revised study plan
 - access to academic support classes, for example English language support, or seeking peer tutors
 - Referral to personal guidance counselling, internal and external counselling
 - development of a mentor/buddy system for the student

5. Extension to an expected course duration

Extensions to the course duration specified on the CoE are only allowed where:

- Compassionate or compelling circumstances apply, and demonstrable evidence is provided, which may include but is not limited to:
 - serious illness or injury, where a medical certificate states that the student was unable to attend classes;
 - bereavement of close family members such as parents or grandparents;
 - major political upheaval or natural disaster in the home country requiring emergency travel and this has impacted on the student's studies;
 - a traumatic experience which has impacted on the student and which could include involvement in or witnessing of a serious accident; and
 - witnessing or being the victim of a serious crime. These cases should be supported by police or psychologists' reports); or
 - where CMI is unable to offer a pre-requisite unit.
 - where the student is unable to begin studying on the course commencement date due to delay in receiving a student visa.
 - Where a student is complying with an intervention strategy implemented for students identified at risk of not making satisfactory course progress or meeting attendance requirements, or
 - An approved deferral or suspension of studies has been granted in accordance with CMI's Deferral, Suspension and Cancellation Policy and Procedures.
 - When the student can only account for the variation/s by extending his or her expected duration of study, this will be reported to the Department of Home Affairs (DHA) via PRISMS.

All variations in the student's study load, including the reasons for the variation will be recorded on the student's file. Where the duration of the student's enrolment is extended, CMI will advise the student to contact the Department of Home Affairs (DHA) to seek advice on any potential impacts on their visa, including the need to obtain a new visa.

6. Reporting students

Students will be reported to Department of Home Affairs (DHA) via PRISMS. where they either:

- demonstrate unsatisfactory attendance (< 80% within a study period) and have failed the course progress requirements,
- OR
- They fail to achieve a minimum attendance of 70% of the study hours within the study period.

The student will also receive a written notice informing them of the intention to report for non- satisfactory course progress and/or attendance and the reasons for the intention to report.

Students have the rights to appeal against this decision as per CMI's Complaints and Appeals Policy and Procedure. If the student chooses to access this process, the student will not be reported until this process is completed.

CMI will only report unsatisfactory course progress or unsatisfactory course attendance in PRISMS if:

- the internal and external complaints processes have been completed and the decision or recommendation supports the registered provider; or the overseas student has chosen not to access the internal complaints and appeals process within the 20-working day period; or
- the student has chosen not to access the external complaints and appeals process, or
- the overseas student withdraws from the internal or external appeals processes by notifying CMI in writing.

All records will be kept on the student's file including warning letters and the notice of intention to report.

APPENDIX 2 – Attendance Warning Letter

Low attendance warning letter **URGENT ATTENTION- UNSATISFACTORY ATTENDANCE**

Date: [dd/mm/yyyy]

Name: [Trainee Full Name]

Address: [Trainee Postal Full Address]

Course Details: [Qualification Code] [Qualification Name]

Dear [Trainee Full Name],

We are writing this letter to formally advise you that according to our records, you have unsatisfactory attendance (less than 80%) in your scheduled classes, which will affect your course progress, consequently, putting you at the risk of breaching your students' visa requirements.

Throughout the course, you are required to complete theory and practical assessments and having low attendance signifies that you are most likely to miss your assessments and fail the unit, which will lead to unsatisfactory course progress.

During your orientation program and during further contacts you were reminded of student visa conditions related to maintaining satisfactory course progress (to be deemed competent in at least 50% of the unit of competency for the study period*) and satisfactory attendance throughout the course to complete the assessments.

While your current attendance rate is deemed to be unsatisfactory you are at risk of falling behind in your studies and failing to achieve the necessary level of course progress.

Under the ESOS Framework including Education Services for Overseas Students Act 2000 and National Code 2018, CMI is required to report unsatisfactory course progress (failing to complete at least 50% of units for two consecutive study periods*) to Department of Home Affairs (DHA) via PRISMS which means you are at risk of breaching your student Visa requirements.

You must **contact CMI administration within 5 days of receiving** this letter or as soon as possible to discuss any issues you may be having. CMI will discuss and implement intervention strategies to assist you to maintain attendance at this meeting.

It is of the utmost importance you attend classes to ensure successful outcomes. CMI will continue to monitor your attendance and course progress.

CMI is committed to providing extra academic support by appointing tutor and LLN support so that students are provided necessary assistance to complete the course.

Yours sincerely,

Central Melbourne Institute
